

Lake Macquarie City Council Administration

Speers Point, NSW

Client: Lake Macquarie City Council

Budget: Approx \$11 million

Role: Principal Design Consultant

Type: Total Refurbishment & Office Fit-out

Completed: 2021

The upgrades to Lake Macquarie City Council's offices at Speers Point is an \$11 million development which includes a complete refurbishment of offices, meeting rooms, staff areas and associated facilities over three stories of an existing building. The development utilises clever integration and coordination of new and existing services to create a sustainable work environment incorporating modern & emerging digital technologies. Internal spaces are tailored to suit a new dynamic work culture whilst maintaining flexibility for future growth with department navigation and wayfinding being an integral part the office planning. Fit-out selections draw inspiration from the local natural environment creating a link to the landscape in which the Council is situated.
