

WesTrac Perth

Guildford, WA

Client: WesTrac

Budget: Undisclosed

Role: Principal Design Consultant

Type: Parts Distribution Centre

Completed: 2014

As part of the masterplan and rebuild of the entire WesTrac Guildford site in Western Australia, EJE have designed and documented the new state of the art Parts Distribution Centre. This new 20,000sqm facility enables WesTrac to centralise six separate operations into one building, significantly improving efficiency, safety and customer service.

The building has capacity for 350 staff and an emphasis on customer service, with the new multi shuttle goods to person racking system, generous customer service areas, elevated viewing areas and a new Cat shop.
